# Homemaker's Corner

## Recipes

### Pop Corn Balls

1 cup sugar  
 1/3 cup white corn syrup  
 1/3 cup water  
 1/4 cup butter  
 1/4 tsp. salt  
 1/4 tsp. vanilla  
 3 qts. popped corn

Put sugar, corn syrup, water, butter and salt in a saucepan and cook until the sugar is dissolved. Continue cooking without stirring until syrup forms a brittle ball in cold water. Add vanilla and stir only enough to mix it through the hot syrup. Place the popped corn in a bowl large enough for mixing. Pour the cooked syrup slowly over the popped corn and mix well. Wet the hands slightly and shape the corn into balls, using only enough pressure to make the balls stick together.

### Magic Truffles (Fudge)

1 package (6 oz.) semi-sweet chocolate chips  
 1/3 cup plus 1 tablespoon Eagle Brand Sweetened Condensed Milk  
 Pinch of salt  
 1/4 teaspoon vanilla extract  
 Nut meats

Melt chocolate, without stirring, in top of double boiler. Remove from heat. Add milk, salt, flavoring and nuts. Stir only until blended.

Turn mixture into buttered pan and chill until firm (about two hours). Cut into bars or squares.

## A Poem For The Week

### His Way

God bade me go when I would stay  
 ("Thy will be done," I said);  
 I did not know the reason why,  
 I heard a boulder crashing by  
 Across the path where I stood.

He bade me stay when I would go;  
 "Thy will be done," I said.  
 They found one day at early dawn,  
 Across the way I would have gone,  
 A serpent with a mangled head.

No more I ask the reason why,  
 Although I may not see  
 The path ahead, His way I go;  
 For though I know not, He doth  
 know,  
 And He will choose safe paths  
 for me.

—The Sunday School Times.

Pouring out just the right amount of laundry or washing soap flakes or powder is easy if you keep the soap in a glass syrup pitcher with spring snap top.

Remember to always shrink new material before using it for patching a garment that has been dry cleaned or washed. Otherwise the patch may shrink or pucker.

## The Story of Heemstra Hall

The completion of Heemstra Hall constitutes the culmination of many years of effort. President Heemstra himself led the campaign for funds for several years. The school shared also in denominational campaigns, and by 1949 a considerable amount — about \$85,000 was in hand. In 1949 and 1950 much organized promotion was done, especially in the immediate section in which the school is located, so that sufficient funds were raised to enable us to say today that the dormitory is free from debt. The cost of construction was \$171,000 and that of furnishings and equipment was \$24,000 or a total of \$195,000.

The building has been in use since September, 1950. It has living accommodations for 80 girls. The dining-room is used by both girls and boys, and has space for 160 students. Besides the beautiful lounge, there are recreation rooms, a snack room, laundryroom, a large modern kitchen, and food storage rooms.

It is most fitting that this building should be named Heemstra Hall. Hereby permanent honor is being paid to President and Mrs. Heemstra. Dr. Heemstra has served as president since 1928. He was educated at Northwestern Classical Academy, Hope College, Princeton and Western Theological Seminary, and the University of Chicago. Before coming back to Northwestern in 1928, he served as superintendent of schools in Sioux Center, as pastor of Trinity Reformed Church in Chicago, and was on the staff at Central College. Mrs. Heemstra has long labored very effectively as president of the Women's Auxiliary of the school and has filled a large place as a leader in church activities in this area, and as a member of the Women's Board of Domestic Missions.

The name Heemstra Hall serves to recognize also the life of Rev. John F. Heemstra, who was a vigorous and scholarly preacher in the denomination and served as Principal of Northwestern Classical Academy from 1906 to 1910.

previous snowfalls, we shared in two more days of it on Saturday and Sunday. After that the wind took over and gave everyone a rough time with drifting snow.

As this is written early Wednesday morning we have been informed via radio that the Christian Elementary School and Western Christian High will continue their vacation for the third day this week. Hull Public School will hold its first classes this week, but no buses will be going after the students.

The rural mail carrier got most of their patrons on Tuesday, but had to travel nearly twice as far as usual.

Cream haulers were getting to some of their patrons but not nearly all of them.

The auto body repair shops have seen an increase in business because of the bad road conditions. John Koel's new Chevrolet received a scratch across the back fender in Sibley last Friday night while enroute to the basketball game. Gerrit J. Te Slaa's '48 Dodge had the top pushed in when it headed for the ditch. Mrs. Te Slaa and two children were in the car at the time. The children were not hurt but Mrs. TeSlaa received minor injuries. Many others had their cars dented or scratched, but we haven't been able to keep up with all of them.

Business has slowed considerably. Those who have been getting to town picked up their necessities and then quickly returned home. Our paper, this week, has also suffered because of the weather. Advertising was at a minimum and news aside from that of the weather was also at low ebb.

The Sub-state Basketball Tournament, to have been held Monday was, at last reports, to be held on Wednesday.

Sunday School and Christian Endeavor meetings were not held at the First Reformed Church on Sunday.

And so we could go on — no doubt about it — we've got Winter.

## Pre-nuptial Shower

A miscellaneous shower was held at the J. P. Vis home Monday evening, February 26th, for Miss Harriet Ann Gesink. The evening was spent playing games. A delicious lunch was served by the hostesses.

The honoree, who became the bride of Mr. Albert Vis of Hull, received many beautiful and useful gifts.

ON TIME. What's the quickest way to put across that you will be on hand at a certain hour and minute? The telephone, naturally. But you don't expect to pay extra for being able to flash an important message to a friend. And you don't pay more—you pay only what the call costs to provide.

AHEAD OF TIME. To take care of the many people who now want telephone service, we must build new plant. This takes money. Where does it come from? From people willing to risk their savings in a business enterprise. They are willing to do so only if the telephone bill you pay includes a profit. Investors always look at what their money may earn before they put it to work — and this is the money we need to pay for improvements and growth. The telephone company must make enough to keep healthy, sound, and in key with demand.
