Dear Dr. E.,

A lot of time has passed since I left Northwestern and was part of your theater family. During that time, my life has changed many times and in many ways. None of those changes occurred however without some form of recollection and reflection of my days at college and especially the moments spent with you and the theater. Your joyfull outlook on life and the way you somehow implanted that outlook in me has taken hold with such firmness that no matter what the future holds for me, I know I can draw on that same joy of life anytime it becomes necessary.

I have very special memories about you, the Choral Leaders, the productions and oh yes, the multi-purpose gymnasium. Those remembrances and experiences are very much a part of my life and especially my living.

I guess what I have been really trying to say Dr. E. is thank you very much. There has never been another person that has so greatly turned me on to life the way you did and I am ever gratefull.

With much love, affection and gratitude,

Bob Boonstra
