April 19, 1974

DEAR DR. ENGLAND,

Being creative with words has never been one of my attributes; so at times like this it is most difficult for me to express my inner feelings.

As Marquis of Halifax once stated, "Education is what remains when we have forgotten all that we have been taught."

You, I believe, understand; For ~~yo~~ I have only experienced it, you have lived it by sharing it with others. I thank you! I have gone in peace and the God of Peace is with me. With His Richest Blessings - Nancy Herzog
1963-1964
