Price supports for 1951 Sioux County Farmers along with farmers in the United States will have the advantage of price supports to encourage the production of the needs brought on by the present emergency.

The minimum 1951 support for corn reflects a 7 cent increase from the 1950 average, and is expected to be somewhat higher by Oct. 1st. The 90% of parity level will be in effect again in 1951.

The 1951 Soybean price will be supported at 75% of parity based on a national average of \$2.45 per bushel. State and County figures are not yet available.

Higher Farm Production Needed The main production increase in Iowa and Sioux County centers around corn and farmers are asked to increase their production around 16% over the 1950 figure.

This additional production is needed to supply the necessary feed for livestock and to maintain necessary reserves. A substantial amount of corn has already been sold from Sioux County Government Bin reserves.

Other counties in the State are reporting a like condition. Livestock numbers must be kept high and in this connection Sioux County farmers are being asked to increase their hog and cattle production by approximately 8%.

To make this contribution to our defense effort will require very careful planning and the use of all conservation measures possible by all farmers.

High production may be needed for many years to come. Seeding of grasses and legumes and erosion control are some of the practices the P.M.A. encourages and are very essential.

Ed J. Schmidt, Chairman Sioux County PMA Committee

FINISH NURSING COURSE The second of three home nursing classes was completed Tuesday evening. The instructor is Mrs. Fritz Byrnes and the women meet in the convenient locker room at the high school.

The women have 12 hours of instruction by Nurse Byrnes. Those completing this course are Mesdames Alfred Aalberts, Henry Vander Berg, Clifford Bloemendaal, Franklin De Haan, H. F. De Haan, Ed Lubbers, Ray Van Pelt, Ben Roetman, Wm. Tolman, Gerrit De Zeeuw sr., Alice Vlieger, and Lillian Van Zyl, and Miss Mabel Versteeg.

The third class will begin after Easter and those interested may call Mrs. Don Kraai. The new class will be 14 hours and Mrs. Byrnes will also give two hours more to the women of the first classes. The extra hours deal with civilian defense nursing.

The completion of Heemstra Hall constitutes the culmination of many years of effort. President Heemstra himself led the campaign for funds for several years. The school shared also in denominational campaigns, and by 1949 a considerable amount—about \$85,000 was in hand.

The building has been in use since September, 1950. It has living accommodations for 80 girls. The dining-room is used by both girls and boys, and has space for 160 students.

It is most fitting that this building should be named Heemstra Hall. Hereby permanent honor is being paid to President and Mrs. Heemstra. Dr. Heemstra has served as president since 1928. He was educated at Northwestern Classical Academy, Hope College, Princeton and Western Theological Seminars, and the University of Chicago.

The name Heemstra Hall serves to recognize also the life of Rev. John F. Heemstra, who was a vigorous and scholarly preacher in the denomination, and served as Principal of Northwestern Classical Academy from 1906 to 1910.
