Orange City, Iowa  
April 25, 1974

Dr. Theora England  
Northwestern College  
Orange City, Iowa

Dear Dr. England:

One of the main reasons that a small community is able to grow culturally as well as economically is that local citizens are willing to give of themselves for the betterment of their "hometown". Orange City is no exception! Various projects have come and gone in the development of our city, but each activity has left its' mark in our constant endeavor to offer the best in entertainment to the people in this area.

The members of the Orange City Women's Club will long remember the many outstanding "Thanksgiving Plays" which you produced and directed under their sponsorship. Your contribution to the growth of local appreciation for outstanding drama will never be forgotten.

It is with affection that we say "thank you" for your hours of work and dedication in helping to achieve worthwhile entertainment for the residents of Orange City. May your years of retirement be filled with many more exciting activities, and with the satisfaction of knowing your efforts have been deeply appreciated.

Most sincerely

Orange City Women's Club
